Report on Financial Statements Issued in Accordance with Government Auditing Standards and a Single Audit Accompanied by Required Supplementary Information, Supplementary Information, and Other Information

Independent Auditor's Report

**To the Board of Trustees
Coleman Independent School District
Coleman, Texas 76834**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Coleman Independent School District (the District) as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise the Coleman Independent School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

James E. Rodgers and Company, P.C.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Coleman Independent School District, as of August 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and GASB 68 and 75 schedules for pension and OPEB liabilities and contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Coleman Independent School District's basic financial statements. The combining and individual nonmajor fund financial statements, and the Texas Education Agency required information in conformity with laws and regulations of the State of Texas in Exhibits J-1, J-2, and J-4, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the Texas Education Agency required information in conformity with laws and regulations of the state of Texas in Exhibits J-1, J-2, and J-4, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the Texas Education Agency required information and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

James E. Rodgers and Company, P.C.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2021, on our consideration of the Coleman Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Coleman Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Coleman Independent School District's internal control over financial reporting and compliance.

Respectfully submitted,

James E. Rodgers and Company

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the district. The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for non-major funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins with the Statement of Net Position (Exhibit A-1). Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's Net Position and changes in them. The District's Net Position (the difference between assets, deferred outflows, liabilities, and deferred inflows) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's Net Position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider non-financial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we combine the District into one kind of activity (all governmental activities).

Governmental activities—All the District's basic services are reported here, including instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin with the Governmental Funds Balance Sheet (Exhibit C-1) and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the “ESEA Title, I Part A” act from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds (governmental and proprietary) use different accounting approaches.

Governmental funds—Most of the District's basic services are reported in governmental funds. These funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in a reconciliation schedule following each of the fund financial statements.

Proprietary funds—The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise funds (one category of proprietary funds which the District does not have at present) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The internal service funds (the other category of proprietary funds in Exhibits D-1, D-2, and D-3) report activities that provide supplies and services for the District's other programs and activities—such as the District's self-insurance programs.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

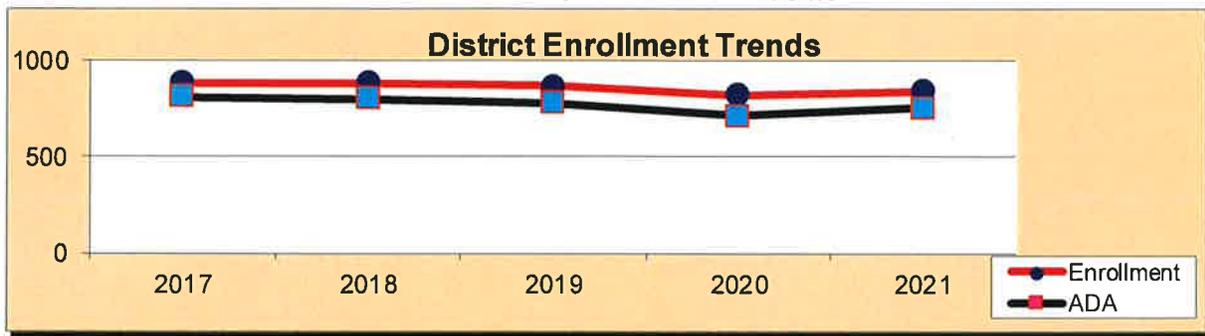

The District is the trustee, or fiduciary, for money raised by student activities and alumni scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position (Exhibit E-1). We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

State funding in Texas is based upon the District’s average daily attendance, thus the District’s revenue is highly dependent on enrollment trends. The District receives additional weighted funding for students enrolled in career and technology coursework, gifted and talented, special, bilingual, and compensatory education programs. The demographics of the District and the types of coursework students pursue are continuing to evolve in the District. The following chart details the enrollment trends of the District.

ENROLLMENT TRENDS

Year	Enrollment	ADA
2017	885	813.2
2018	885	798.6
2019	869	780.1
2020	822	711.1

Ending Fund Balance				
All Governmental Funds	\$ 6,093,536	\$ 162,605	\$ -	\$ 6,256,141

The District modified its budget several times during the year resulting in a net decrease in budgeted expenditures between the original and final budget in the District's General Fund. Significant amendments were made during the current year in various functions as per Exhibit G-1.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of the current year, the District had invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This year's major additions and the net change in total capital assets are as follows:

Land - 709 W 7th	\$	30,678
Custom 2020 71 Passenger Bus		101,106
Dell EMC Storage Array		22,458
Hustler Z Diesel 60" Mower		13,801
2006 Chevrolet Pickup		13,039
2020 Chevrolet Van		35,202
TOTAL	\$	216,284
Total Additions	\$	216,284
Total Deletions		34,936
Net Change	\$	181,348

The District's next fiscal year general fund capital budget indicates no significant capital outlay.

Debt

The District's long term debt at the end of the current year is as follows:

	Interest Rate on Issue	Amounts Original Issue	Interest Current Year	Outstanding 8/31/2021	Next Year's Total Principal and Interest Requirement
Dell Financial Capital Lease	5.82%	\$ 245,561	\$ 1,853	\$ -	\$ -
2015 Maintenance Tax Notes	3.15%	437,525	9,051	238,631	51,698
2017 Bus Capital Lease	3.74%	93,667	1,019	-	-
Totals		\$ 776,753	\$ 11,923	\$ 238,631	\$ 51,698

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

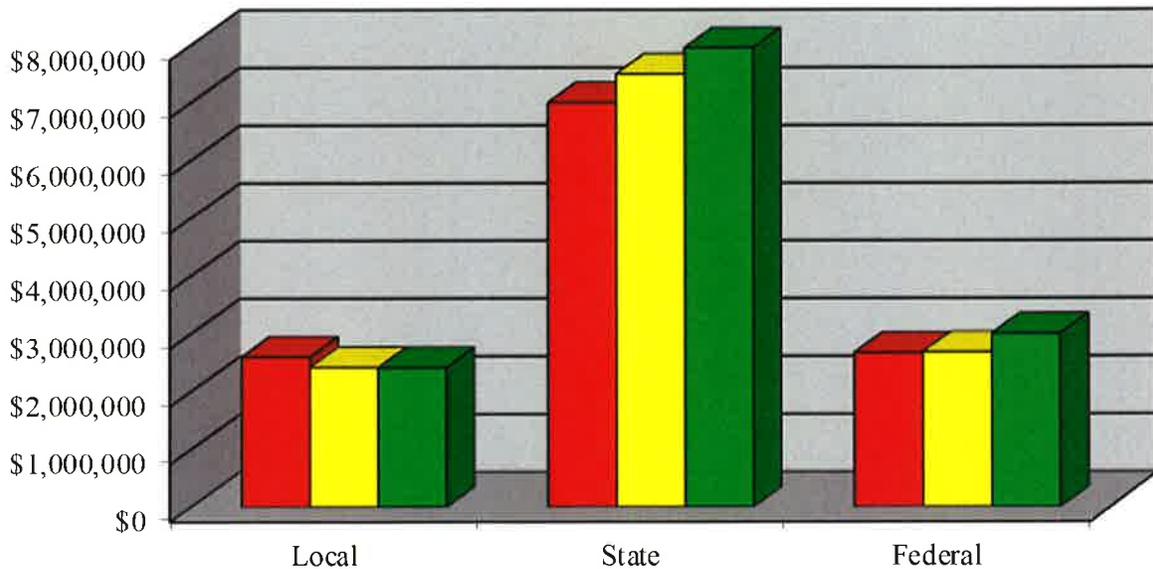

The District's elected and appointed officials considered many factors when setting the next fiscal year budget and tax rates. Those changes along with expected student enrollment were implicit in the expected revenue and expenditures when adopting the budget for next year. A summary of the subsequent fiscal year budget for funds legally required to be budgeted is as follows:

Fiscal Year 2021 - 2022 Adopted Budget				
	General Fund	Child Nutrition Fund	Debt Service Fund	TOTALS
Revenues	\$ 9,958,590	\$ 467,157	\$ -	\$ 10,425,747
Expenditures	(9,903,590)	(522,157)	-	(10,425,747)

 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
 STATEMENT OF NET POSITION
 AUGUST 31, 2021

EXHIBIT C-2

Total Fund Balances - Governmental Funds	\$	6,256,141
1 The District uses internal service funds to charge the costs of certain activities, such as self-insurance, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position. The net effect of this consolidation is to increase net position.		-
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. At the beginning of the year, the cost of these assets was \$18,455,867 and the accumulated depreciation was (\$11,296,233). In addition, long-term liabilities, including bonds payable, are not due and payable in the current period, and, therefore are not reported as liabilities in the funds. The net effect of including the beginning balances for capital assets (net of depreciation) and long-term debt in the governmental activities is to increase net position.		6,668,699
3 Current year capital outlays and long-term debt principal payments are expenditures in the fund financial statements, but they should be shown as increases in capital assets and reductions in long-term debt in the government-wide financial statements. The net effect of including the current year capital outlays and debt principal payments is to increase net position.		450,461
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to TRS included a deferred resource outflow in the amount \$1,254,597, a deferred resource inflow in the amount of \$603,018, and a net pension liability in the amount of \$2,997,902. This resulted in a decrease in net position.		(2,346,323)
5 Included in the items related to debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75. The net position related to TRS included a deferred resource outflow in the amount of \$441,677, a deferred resource inflow in the amount of \$2,996,856, and a net OPEB liability in the amount of \$3,302,258. This resulted in a decrease in net position.		(5,857,437)
6 The current year depreciation expense increases accumulated depreciation. The net effect of the current year's depreciation is to decrease net position.		(408,799)
7 Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing unavailable revenue from property taxes as revenue, reclassifying the proceeds of bond sales as an increase in bonds payable, and recognizing the liabilities associated with maturing long-term debt and interest. The net effect of these reclassifications and recognitions is to increase net position.		298,101

COLEMAN INDEPENDENT SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED AUGUST 31, 2021

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Coleman Independent School District (the "District") is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven-member Board of Trustees (the "Board") elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles accepted in the United States of America as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District also complies with the requirements of the appropriate version of Texas Education Agency's *Financial Accountability System Resource Guide* (the "Resource Guide") and the requirements of contracts and grants of agencies from which it receives funds.

A. REPORTING ENTITY

The Board of Trustees (the "Board") is elected by the public and has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board ("GASB") in its Statement No. 14, "The Financial Reporting Entity." There are no component units included within the reporting entity.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the **Coleman Independent School District** non-fiduciary activities with most of the Inter-fund activities removed. *Governmental activities* include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues. *Business-type activities* include operations that rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates how other people or entities that participate in programs the District operates have shared in the payment of the direct costs. The "charges for services" column includes payments made by parties that purchase, use, or directly benefit from goods or services provided by a given function or segment of the District. Examples include tuition paid by students not residing in the district, school lunch charges, etc. The "grants and contributions" column includes amounts paid by organizations outside the District to help meet the operational or capital requirements of a given function. Examples include grants under the Elementary and Secondary Education Act. If revenue is not program revenue, it is general revenue used to support all of the District's functions. Taxes are always general revenues.

Inter-fund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the Governmental Fund Balance Sheet and Proprietary Fund Statement of Net Position and as other resources and other uses on the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All inter-fund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the government-wide statements. Inter-fund activities between governmental funds and enterprise funds remain on the government-wide statements and appear on the government-wide Statement of Net Position as internal balances and on the Statement of Activities as inter-fund transfers. Inter-fund activities between governmental funds and fiduciary funds remain as due to/due from on the government-wide Statement of Activities.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories - governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The District considers some governmental and enterprise funds major and report their financial condition and results of operations in a separate column.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues result from providing goods and services in connection with a proprietary fund's principal ongoing operations; they usually come from exchange or exchange-like transactions. All other revenues are non-operating. Operating expenses can be tied specifically to the production of the goods and services, such as materials and labor and direct overhead. Other expenses are non-operating.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements use the current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets, current liabilities and fund balances are included on the balance sheet. Operating statements of these funds present net increases and decreases in current assets (i.e., revenues and other financing sources and expenditures and other financing uses).

The modified accrual basis of accounting recognizes revenues in the accounting period in which they become both measurable and available, and it recognizes expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest and principal on long-term debt, which is recognized when due. The expenditures related to certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. The District considers all revenues available if they are collectible within 60 days after year-end.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the "susceptible to accrual" concept, that is, when they are both measurable and available. The District considers them "available" if they will be collected within 60 days of the end of the fiscal year. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless these pronouncements conflict or contradict GASB pronouncements. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the fund Statement of Net Position. The fund equity is segregated into invested in capital assets net of related debt, restricted net position, and unrestricted net position.

D. FUND ACCOUNTING

The District reports the following major governmental funds:

General Fund – The general fund is the District's primary operating fund. This fund accounts for all financial resources except those required to be accounted for in another fund.

Special Revenue Fund – The Shared Service Arrangement (SSA) for 21st Century Learning is a major fund. This fund accounts for all financial resources in connection with the 21st Century Learning federal grant for the SSA.

The District reports the following major enterprise fund(s):

The District does not maintain major enterprise funds at present.

Additionally, the District reports the following fund type(s):

Governmental Funds:

Special Revenue Funds – The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.

Proprietary Funds:

Internal Service Funds – Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis (such as workers' compensation) are accounted for in an internal service fund when applicable.

Fiduciary Funds:

Custodial Funds – The District accounts for resources held for others in a custodial capacity in custodial funds including funds used to account for student activities.

Transactions between funds that are representative of lending / borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to / from other funds". While these balances are reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included in the governmental activities' column. Similarly, balances between the funds included in any business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in / out. While reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities' column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as internal balances in the business-type activities column.

E. OTHER ACCOUNTING POLICIES

1. For purposes of the statement of cash flows for proprietary funds, the District considers highly liquid investments to be cash equivalents if they have maturity of three months or less when purchased.
2. The District reports inventories of supplies using the first-in, first-out inventory cost method. The supplies include consumable maintenance, instructional, office, athletic, and transportation items. Under the purchase method, supplies are recorded as expenditures when they are purchased. Inventories of food commodities are recorded at market values supplied by the Department of Agriculture. Although commodities are received at no cost, their fair market value is supplied by the Department of Agriculture and recorded as revenue and expenditures when received. Material inventories (if any) including food commodities are recorded as an asset and a corresponding amount of expenditures are reduced at year-end.
3. In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenditures and expenses in the year the bonds are issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

4. It is the District's policy to permit some employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.
5. Capital assets, which include land, buildings, furniture and equipment and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

ASSETS	YEARS
Buildings	45
Buildings and Improvements	15 - 45
Infrastructure	40
Vehicles	5 - 7
Office Equipment	5
Computer Equipment	5

6. Since Internal Service Funds in the District support the operations of governmental funds, they are consolidated with the governmental funds in the government-wide financial statements. The expenditures of governmental funds that create the revenues of internal service funds are eliminated to avoid "grossing up" the revenues and expenses of the District as a whole.
7. Restricted assets, if applicable, of the District are limited to cash and certificates of deposit which have been gifted to the District with the stipulation that only the earnings are available for current and future scholarship recipients.
8. The Districts that participate in self-funded workers' compensation programs execute inter-local agreements that define the responsibilities of the parties. The program, if applicable, provides statutory workers' compensation benefits to its members and their injured employees.

9. Net Position and Fund Balances:

Government-wide and Proprietary Fund Net Position:

Government-wide and proprietary fund net positions are divided into three components:

- Net investment in capital assets—consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets plus deferred outflows of resources less deferred inflows of resources related to those assets.
- Restricted net position—consist of assets that are restricted by the District's creditors (for example, through debt covenants), by the state enabling legislation (through restrictions on shared revenues), by grantors (both federal and state), and by other contributors.
- Unrestricted—all other net position is reported in this category.

Governmental Fund Balances:

In the governmental fund financial statements, fund balances are classified as follows:

- Non-spendable—Amounts that cannot be spent either because they are in a non-spendable form or because they are legally or contractually required to be maintained intact.
- Restricted—Amounts that can be spent only for specific purposes because of the District's state or federal laws, or externally imposed conditions by grantors or creditors.
- Committed—Amounts that can be used only for specific purposes determined by a formal action by Board of Trustees' ordinance.
- Assigned—Amounts that are designated by the Superintendent for a particular purpose but are not spendable until a budget ordinance is passed or there is a majority vote approval (for capital projects or debt service) by the Board of Trustees.
- Unassigned—All amounts not included in other spendable classifications.

10. Use of Restricted Resources:
When an expenditure/expense is incurred that can be paid using either restricted or unrestricted resources (net position), the District's policy is to first apply the expenditure/expense toward restricted resources and then toward unrestricted resources. In governmental funds, the District's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications—committed and then assigned fund balances before using unassigned fund balances.
11. The District applies Governmental Accounting Standards Board (“GASB”) Statement No. 72, Fair Market Value Measurement and Application. GASB Statement No. 72 which provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.
12. Investment income reported in one fund has not been assigned directly to another fund by the District.
13. The Data Control Codes refer to the account code structure prescribed by the Texas Education Agency (TEA) in the *Financial Accountability System Resource Guide*. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.
14. Deferred Outflows of Resources:
The District reports decreases in net assets that relate to future periods as deferred outflows of resources in a separate section of its government-wide and proprietary funds statements of net position. The deferred outflow of resources reported in this year's Statement of Net Position relates to the TRS GASB #68 liability and GASB #75 OPEB liabilities. No deferred outflows of resources affect the governmental funds financial statements in the current year.
15. Deferred Inflows of Resources:
The District's governmental funds report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net assets that applies to a future period(s). The District will not recognize the related revenues until a future event occurs. The District has items which occur because governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the District's fiscal year) under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, deferred property taxes and grants are reported in the governmental funds balance sheet. The District did have deferred inflows of resources to report in its government-wide or proprietary fund financial statements for the current year related to the TRS GASB #68 and GASB #75 OPEB liabilities.
16. Pensions:
The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities, and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

17. Other Post-Employment Benefits:

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resource measurement focus and full accrual basis of accounting. This includes for purposes of measuring the new OPEB liability, deferred outflows of resources and deferred inflows or resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

Exhibit C-2 provides the reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net position for governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

Capital Assets at the Beginning of the Year	Historical Cost	Accumulated Depreciation	Net Value at Beginning of Year	Change in Net Position
Land	\$ 908,127	\$ -	\$ 908,127	
Buildings and Improvements	15,191,786	(9,368,817)	5,822,969	
Furniture and Equipment	1,944,921	(1,674,190)	270,731	
Leased Property Under Capital Leases	411,033	(253,226)	157,807

Notes and Capital Leases Payable			191,531	
Accrued Interest - Capital Leases			18,127	
Change in Net Position				490,935
Net Adjustment to Net Position				\$ 6,668,699

B. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

Exhibit C-4 provides reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures, and changes in fund balances and the changes in net position of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements. This adjustment affects both the net position balance and the change in net position shown in Exhibit C-2 and Exhibit C-4. The details of this adjustment are as follows:

	Amount	Adjustments To Changes in Net Position	Adjustments to Net Position
Current Year Capital Outlay			
Land	\$ 30,678		
Buildings & Improvements	-		
Furniture & Equipment	185,606		
Leased Property Under Capital Leases	-		
Construction in Progress	-		
Total Capital Outlay	<u>\$ 216,284</u>	\$ 216,284	\$ 216,284
Debt Principal Payments			
Bond Principal	\$ -		
Note Principal Payments	42,646		
Capital Lease Payments	191,531

Total Adjustment to Net Position		<u>\$ 450,461</u>	<u>\$ 450,461</u>

Another element of the reconciliation on Exhibits C-2 and C-4 are described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details of this adjustment are as follows:

	Amount	Adjustments to Change in Net Position	Adjustments to Net Position
Adjustments to Revenue, Deferred Revenue, Beg. Net Position			
Beginning of Year Unavailable Tax Revenue	\$ 296,633	\$ -	\$ 296,633

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. BUDGETARY DATA

The Board of Trustees adopts an "appropriated budget" for the General Fund, Debt Service Fund (if applicable) and the Food Service Fund (which is included in the Special Revenue Funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. **The General Fund Budget report appears in Exhibit G-1 and the other two reports are in the J Exhibits as reported in the required TEA Exhibits.**

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.
3. Prior to September 1, the budget is legally enacted through passage of a resolution by the board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. These amendments are included in Exhibit G-1 for the general fund.

4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as adopted and amended by the Board of Trustees. All budget appropriations lapse at year-end. A reconciliation of fund balances for both appropriated budget and non-appropriated budget special revenue funds is as follows:

	August 31, 2021 Fund Balance
Appropriated Budget Funds - Food Service Special Revenue Fund	\$ 52,615
Non-appropriated Budget Funds	109,990
All Special Revenue Funds	\$ 162,605

B. BUDGETARY STEWARDSHIP, COMPLIANCE and ACCOUNTABILITY

The District has disclosed budgetary stewardship, compliance, and accountability in Section C of the Notes to Required Supplementary Information.

C. DEFICIT FUND EQUITY

The District **did not incur a deficit fund balance** in any fund during the current school year.

IV. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

The carrying amount of the District's cash and temporary investments at the end of the fiscal year follows:

Trust Funds	31,047
Other Funds	-
Total Cash and Cash Equivalents by Fund	\$ 4,878,514

District Policies and Legal and Contractual Provisions Governing Deposits

Custodial Credit Risk for Deposits: State law requires governmental entities to contract with financial institutions in which funds will be deposited to secure those deposits with insurance or pledged securities with a fair value equaling or exceeding the amount on deposit at the end of each business day. The pledged securities must be in the name of the governmental entity and held by the entity or its agent. The District's cash deposits subject to custodial credit risk at the date of the highest cash balance and at year end were:

CUSTODIAL CREDIT RISK	HIGHEST CASH BALANCE	8/31/2021
Name of Depository Bank: Coleman County State Bank, Coleman, TX		
Total amount of FDIC Insurance (FDIC)	\$ 500,000	\$ 500,000
Amount of Bond or Securities Pledged	7,960,707	7,360,143
Total FDIC, Bond or Securities Pledged	\$ 8,460,707	\$ 7,860,143
Cash Deposits and Cash Investments in Bank	\$ 8,083,304	\$ 6,531,490
Excess or (Shortage) FDIC and Bond or Pledged Securities Pledged	\$ 377,403	\$ 1,328,653
The District's cash deposits were entirely covered by FDIC Insurance or by bond or pledged collateral by the Depository Bank	YES	YES

Foreign Currency Risk: The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit by limiting all deposits denominated in a foreign currency.

Investments

District Policies and Legal and Contractual Provisions Governing Investments

Compliance with the Public Funds Investment Act

The **Public Funds Investment Act** (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires a governmental entity to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes authorize the entity to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas and its agencies; (2) guaranteed or secured certificates of deposit issued by state and national banks domiciled in Texas; (3) obligations of states, agencies, counties, cities and other political subdivisions of any state having been rated as to investment quality not less than an "A"; (4) No load money market funds with a weighted average maturity of 90 days or less; (5) fully collateralized repurchase agreements; (6) commercial paper having a stated maturity of 270 days or less from the date of issuance and is not rated less than A-1 or P-1 by two nationally recognized credit rating agencies OR one nationally recognized credit agency and is fully secured by an irrevocable letter of credit; (7) secured corporate bonds rated not lower than "AA-" or the equivalent; (8) public funds investment pools; and (9) guaranteed investment contracts for bond proceeds investment only, with a defined termination date and secured by U.S. Government direct or agency obligations approved by the Texas Public Funds Investment Act in an amount equal to the bond proceeds. The Act also

requires the entity to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Additional policies and contractual provisions governing investments for the District are specified below:

Credit Risk: To limit the risk that an issuer or other counterparty to an investment will not fulfill its obligations, the District limits investments in commercial paper, corporate bonds, and mutual bond funds to the top 2 or 3 ratings issued by nationally recognized statistical rating organizations (NRSROs). As of the current fiscal year, the district's investments were rated by Standard & Poor's, Fitch Ratings, etc.

Custodial Credit Risk for Investments: To limit the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in possession of an outside party the District requires counterparties to register the securities in the name of the district and hand them over to the District or its designated agent. This includes securities in securities lending transactions. All of the securities are in the District's name and held by the District or its agent.

Concentration of Credit Risk: To limit the risk of loss attributed to the magnitude of a government's investment in a single issuer, the District limits investments to less than 5% of its total investments. The District further limits investments in a single issuer to 20% when they would cause investment risks to be significantly greater in the governmental and business-type activities, individual major funds, aggregate non-major funds and fiduciary fund types than they are in the primary government.

Interest Rate Risk: To limit the risk that changes in interest rates will adversely affect the fair value of investments, the District requires at least half of the investment portfolio to have maturities of less than one year on a weighted average maturity basis.

Foreign Currency Risk for Investments: The District limits the risk that changes in exchange rates will adversely affect the fair value of an investment by avoiding all investments denominated in a foreign currency.

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below. In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The *Lone Star* and *TexStar* investment pools are external investment pools measured at net asset value. Lone Star and TexStar's strategy are to seek preservation of principal, liquidity and current income through investment in a diversified portfolio of short-term marketable securities. The District has no unfunded commitments related to the investment pools. Lone Star and TexStar have a redemption notice period of one day and may redeem daily. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pool's liquidity. LoneStar and TexStar are subject to regulatory oversight by the

State Treasurer, although the pools are not registered with the Securities and Exchange Commission.

U.S. Government Agency Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

U.S. Treasury Bonds and *Commercial Paper* classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

As of the end of the current fiscal year, the District had the following investments:

Investments	August 31, 2020 Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Percent of Total Investment s	Weighted Average Maturity (Days)	Credit Risk

B. PROPERTY TAXES

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

C. DELINQUENT TAXES RECEIVABLE

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

D. INTERFUND BALANCES AND TRANSFERS

Inter-fund balances at year end consisted of the following amounts:

FUND	Due From Other Funds	Due To Other Funds

In prior years, the District has not defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, no trust account assets and liabilities for the defeased bonds exist and none are included in the District's financial statements. As of the current year end, \$0 of bonds considered defeased are still outstanding.

There are a number of limitations and restrictions contained in the general obligation bond indenture retired in the previous year. District administration has indicated that the District is in compliance with all significant limitations and restrictions at year end.

I. COMMITMENTS UNDER OPERATING LEASES

Commitments under operating (non-capitalized) lease agreements for facilities and equipment provide for minimum future rental payments at year end as follows (the imputed interest on the leases range from 3.75% to 4.75%):

Year Ending August 31

J. ACCUMULATED UNPAID VACATION AND SICK LEAVE BENEFITS

Upon retirement or death of certain employees, the District pays any accrued sick leave and vacation leave in "lump sum" cash payment to such employee or his/her estate. Individuals employed after October 1, 1985, are not eligible to receive the lump sum payments.

K. HEALTH CARE COVERAGE

The District provided health insurance coverage for employees under the provisions of the Teacher Retirement System of Texas (TRS) active care health insurance plan during the current year. The District paid premiums per month per employee to the plan. Employees, at their option, authorized payroll withholdings to pay premiums for dependents. The plan was authorized by Article 3.51-2, Texas Insurance Code and was documented by contractual agreement.

L. DEFERRED INFLOWS AND UNEARNED REVENUE – GOVERNMENTAL FUNDS

Unavailable revenue at year-end consisted of the following:

	General Fund	Special Revenue Funds	Debt Service Fund	Total

M. DUE FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments at year end are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as “Due from State Agencies” except for some federal programs which are received directly from the federal government for grants such as the REAP Program.

O. LITIGATION

The District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is not aware of pending exposure to claims related to these areas; however, legal counsel and the District do not expect any financial exposure to assets of the District.

P. CONSTRUCTION & OTHER SIGNIFICANT COMMITMENTS & CONTINGENCIES

The District at year end had not incurred additional commitments and/or contingencies in connection with construction or other areas of significance.

Q. JOINT VENTURE-SHARED SERVICE ARRANGEMENTS

The District is a member of the Coleman ISD Shared Services Arrangement ("SSA"). The SSA provides before and after school programs as funded through the 21st Century Community Learning Center grant to member districts. Coleman Independent School District is the fiscal agent for the SSA. The funding for each activity is received by the fiscal agent from the grantor agency. The fiscal agent then provides the funds to the member districts. According to guidance provided in TEA's Resource Guide, the Fiscal Agent has accounted for the fiscal agent's activities of the SSA in a Special Revenue Fund. The Shared Services Arrangements has been accounted for using Model 1 in the SSA section of the TEA Resource Guide. The District's expenditures to the SSA for the current year were as follows:

Shared Services Arrangement	Type of Services	Fiscal Agent	Funding Source	Fiscal Agent Special Revenue Fund	District Special Revenue Fund	Program Expenditures Current Year
Ballinger ISD SSA	Special Education	Ballinger ISD	Special Education	437	N/A	\$ 71,476
TOTAL FUNCTION 93 EXPENDITURES						\$ 71,476

The District also participates in shared service arrangements with other school districts for various educational activities. In addition to the District, other member districts participate in the educational cooperatives and the fiscal agent provides SSA services. Ballinger Independent School District and the Region IV ESC are the fiscal agents for each SSA. The funding for each activity is received by the fiscal agent from the grantor agency. The fiscal agent then provides the funds to the member districts. According to guidance provided in TEA's Resource Guide, the Fiscal Agent has accounted for the fiscal agent's activities of the SSA in a Special Revenue Fund. The Shared Services Arrangements have been accounted for using Model 1 in the SSA section of the TEA Resource Guide. The District neither has a joint ownership interest in fixed assets purchased by the fiscal agents, nor does the district have a net equity interest in the fiscal agents. The fiscal agents are neither accumulating significant financial resources nor fiscal exigencies that would give rise to a future additional benefit or burden to the District. The fiscal agent managers are responsible for all financial activities of the shared services arrangements. Presented below are the shared service arrangements in which the District participates, and the extent of funding received and expended under each program.

Shared Services Arrangement	Type of Services	Fiscal Agent	Funding Source	Fiscal	District	Program

R. SUBSEQUENT EVENTS

In preparing the basic financial statements, District administration has evaluated events and transactions for potential recognition or disclosure through **November 15, 2021**, the date this Annual Financial Report was issued. No material subsequent events have occurred from the current year end to the date this Financial Report was issued.

S. RELATED ORGANIZATIONS

The District at present does not maintain an Educational Foundation (the "Foundation"). These entities are usually established as a not-for-profit entity to provide assistance and support for teachers and students to develop special programs and projects and other school district support activities. This entity would be a "related organization" of the District as defined by *Governmental Accounting Standards Board Statement No. 14 as amended by Statements 39 and 61*.

T. RELATED PARTY TRANSACTIONS

The District incurs related party transactions with businesses owned or employers for various members of the board of trustees. The District did not incur any material reportable related party transactions or balances as of and during the current year end.

U. FUND BALANCE / NET POSITION ADJUSTMENTS

The District did not make a fund balance or a net position adjustment during the current fiscal year.

V. RISK FINANCING AND OTHER COVERAGE

Workers' Compensation Program

Beginning September 1, 1992, the District established a self-insurance plan for workers' compensation benefits as authorized by Section 504.011 of the Labor Code. The District participates in this plan (West Texas Educational Insurance Association self-funded workers' compensation program) along with other participating entities. The District contributes annual amounts determined by Claims Administrative Services, Inc. As claims arise, they are submitted to and paid by Claims Administrative Services, Inc. on behalf of the District under terms of a contractual agreement. According to state statute, the District is protected against unanticipated catastrophic claims and aggregate loss by coverage carried through a commercial insurer licensed or eligible to do business in Texas in accordance with the Texas Insurance Code. Coverage was in effect for specific occurrences exceeding \$225,000 and aggregate retention at \$2,000,000.

The costs associated with this self-insurance plan are reported as inter-fund transactions to the extent of amounts actuarially determined. Accordingly, they are treated as operating revenues of the Internal Service Fund and operating expenditures of the General Fund. The liabilities of the plan include incurred but not reported claims. These liabilities reported in the funds at August 31, 2021, are based on the requirements of Governmental Accounting Standards Board No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. These liabilities include an amount for claims that have been incurred but not reported.

Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims and other economic and social factors. Workers' compensation liabilities for incurred losses to be settled by fixed or reasonably determinable payments over a long period of time were computed by an actuary and are reported at their present value using an expected future investment yield assumption.

Estimates of claims payable and of claims incurred, but not reported at August 31 are reflected as accounts and claims payable of the Fund. The plan is funded to discharge liabilities of the Fund as they become due. Changes in the balances of claims liabilities during the past year are as follows:

	Year Ended August 31, 2020	Year Ended August 31, 2021
Unpaid claims, beginning of year	\$ 48,542	\$ 39,088
Incurred claims (including IBNR'S)	43,546	31,642
Claim Payments	(53,000)	(39,700)
Unpaid claims, end of year	\$ 39,088	\$ 31,030

Property / Casualty Program

During the current year end, the District participated in the TASB Risk Management Fund's (the Fund's) Property Casualty Program with coverage for the following:

- 1) Crime,
- 2) General Liability,
- 3) Property,
- 4) Sexual Misconduct Endorsement, and
- 5) SP Legal Liability.

The fund was created and is operated under the provision of the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Inter-local Agreements that define the responsibilities of the parties.

The Fund purchase stop-loss coverage for protection against catastrophic and larger than anticipated claims for the Property Casualty Program. The terms and limits of the stop-loss program vary by line of coverage. The Fund used the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2018, the Fund anticipates that the District has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is approved by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2021, are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

Unemployment Compensation Program

During the current year, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Inter-local Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's unemployment compensation program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Inter-local Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligations to the Texas Workforce Commission. Expenses are accrued each month until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for Unemployment Compensation pool members.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each plan year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31 are available at the TASB offices and have been filed with the Texas Department of Insurance in Austin.

W. DEFINED BENEFIT PENSION PLAN

a. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for

one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

b. Pension Plan Fiduciary Net Position

Detail information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_publications.aspx, by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512) 542-6592.

c. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (a) above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

In May 2019, the 86th Texas Legislature approved the TRS Pension Reform Bill (Senate Bill 12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. This action causing the pension fund to be actuarially sound, allowed the legislature to approve funding for a 13th check in September 2019. All eligible members retired as of December 31, 2018, received an extra annuity check in either the matching amount of their monthly annuity or \$2,000, whichever was less.

d. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

	<u>Contribution Rates</u>	
	<u>2020</u>	<u>2021</u>
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	7.5%	7.5%
Employers	7.5%	7.5%
Current fiscal year employer contributions		\$ 239,539
Current fiscal year member contributions		\$ 517,595
2020 measurement year NECE on-behalf contributions		\$ 376,695
<u>Payments made by the State On-Behalf of the District for Medicare, Part D:</u>		
Fiscal year 2019 Medicare, Part D On-Behalf		\$ 24,701
Fiscal year 2020 Medicare, Part D On-Behalf		\$ 29,239
Fiscal year 2021 Medicare, Part D On-Behalf		\$ 29,811

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50 percent of the state contribution rate for certain instructional or administrative employees; and 100 percent of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there is an additional surcharge an employer is subject to.

- All public schools, charter schools, and regional educational service centers must contribute 1.5 percent of the member's salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

e. Actuarial Assumptions

The total pension liability in the August 31, 2019, actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Single Discount Rate	7.25%
Long-term expected investment rate of return	7.25%
Municipal Bond Rate of of August 2019	2.33%. Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index"
Last year ending August 31 in Projection Period (100 years)	2119
Inflation	2.30%
Salary Increases including inflation	3.05 % to 9.05% including inflation
Ad hoc post-employment benefit changes	None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2019. For a full description of these assumptions please see the actuarial valuation report dated November 14, 2019.

f. Discount Rate

A single discount rate of 7.25 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.25 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the System's target asset allocation as of August 31, 2020, are summarized below:

Asset Class	Target Allocation ¹ %	Long-Term Expected Arithmetic Real Rate of Return ²	Expected Contribution to Long-Term Portfolio Returns

3) The volatility drag results from the conversion between arithmetic and geometric mean returns.

g. Discount Rate Sensitivity Analysis

The following table presents the Net Pension Liability of the plan using the discount rate of 7.25 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.25 percent) or one percentage point higher (8.25 percent) than the current rate.

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
District's proportionate share of the net pension liability:	\$ 4,622,711	\$ 2,997,902	\$ 1,677,780

h. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At the current year ended August 31, the District reported a liability of \$2,997,902 for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 2,997,902
State's proportionate share that is associated with the District	<u>4,889,709</u>
Total	<u>\$ 7,887,611</u>

The net pension liability was measured as of August 31, 2019, and rolled forward to August 31, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2019, thru August 31, 2020.

At the current year-end August 31, the employer's proportion of the collective net pension liability was 55.97% which was an increase (decrease) of 17.04% from its proportion measured as of August 31, 2019.

Changes Since the Prior Actuarial Valuation

There were no changes in assumptions since the prior measurement date.

For the current year ended August 31, the District recognized the following:

Year Ended August 31, 2021 pension expense	\$ 1,033,716
Revenue for support provided by the State	<u>\$ 588,123</u>

As of the current year ended August 31, the District reported its proportionate share of the TRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experiences	\$ 5,474	\$ 83,663
Changes in actuarial assumptions	695,620	295,773
Differences between projected and actual investment earnings	60,690	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	253,274	223,582
Total as of August 31, 2020 measurement date	\$ 1,015,058	\$ 603,018
Contributions paid to TRS subsequent to the measurement date	239,539	
Total as of fiscal year-end	<u>\$ 1,254,597</u>	<u>\$ 603,018</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal year ended August 31	Pension Expense Amount
2022	\$ 94,289
2023	132,017
2024	134,756
2025	42,788
2026	(1,264)
Thereafter	<u>9,454</u>

X. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

a. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

b. OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_publications.aspx; by writing to the TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512)-542-6592.

c. Benefits Provided

TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

TRS-Care Monthly Premiums Rates		
	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$135	\$200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1020	999

d. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state’s contribution rate which is 1.25 percent of the employee’s salary. Section 1575.203 establishes the active employee’s rate which is .65 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	<u>Contribution Rates</u>	
	<u>2020</u>	<u>2021</u>
Member	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/Private Funding Remitted by Employers	1.25%	1.25%
Current fiscal year employer contributions		\$ 64,005
Current fiscal year member contributions		\$ 43,777
2020 measurement year NECE on-behalf contributions		\$ 88,722

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether they participate in the TRS Care OPEB program*). When hiring a TRS retiree, employers are required to pay to TRS Care a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$230.8 million in fiscal year 2020 to maintain premiums and benefit levels in the 2020-2021 biennium.

e. Actuarial Assumptions

The actuarial valuation was performed as of August 31, 2019. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2020. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for member of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2019 TRS pension actuarial valuation that was rolled forward to August 31, 2020:

- | | |
|----------------------|-------------------------|
| Rates of Mortality | General Inflation |
| Rates of Retirement | Wage Inflation |
| Rates of Termination | Expected Payroll Growth |
| Rates of Disability | |

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published scale (U-MP).

<u>Actuarial Methods and Assumptions:</u>	
Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Expected Payroll Growth
Rates of Disability Incidence	
<u>Additional Actuarial Methods and Assumptions:</u>	
Valuation Date	August 31, 2019 rolled forward to August 31, 2020
Actuarial Cost Method	Individual Entry Age Normal
Inflation	2.30%
Single Discount Rate	2.33% as of August 31, 2020
Aging Factors	Based on plan specific experience
Election Rates	Normal Retirement: 65% participation prior to age 65 and 40% participation after age 65, 25% of pre-65 retirees are assumed to discontinue coverage at age 65
Expenses	Thirty-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs
Salary Increases	3.05% to 9.05%, including inflation
Ad-hoc Post Employment	None
Benefit Changes	

f. Discount Rate

A single discount rate of 2.33 percent was used to measure the total OPEB Liability. There was a decrease of .30 percent in the discount rate since the previous year. Because the plan is essentially a “pay-as-you-go” plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at a statutorily required rates. Based on those assumptions, the OPEB plan’s fiduciary net position was projected *to not be able to* make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the long-term rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity “20-year Municipal GO AA Index” as of August 31, 2020, using the fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

g. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1 percentage point lower and 1 percentage point higher than the discount rate that was used (2.33%) in measuring the Net OPEB Liability.

	1% Decrease in Discount Rate (1.33%)	Discount Rate (2.33%)	1% Increase in Discount Rate (3.33%)
Proportionate share of the net OPEB liability	\$ 3,962,701	\$ 3,302,258	\$ 2,780,602

h. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At the current year-end August 31, the District reported a liability of \$3,302,258 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the Net OPEB Liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 3,302,258
State's proportionate share that is associated with the District	<u>4,437,442</u>
Total	<u>\$ 7,739,700</u>

The Net OPEB Liability was measured as of August 31, 2019, and rolled forward to August 31, 2020, and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2019, thru August 31, 2020.

At the current year-end August 31, the employer's proportion of the collective Net OPEB Liability was 8.69%, compared to 4.99% the previous year.

The following schedule shows the impact of the Net OPEB Liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
Proportionate share of net OPEB liability	\$ 2,697,521	\$ 3,302,258	\$ 4,107,681

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or the other inputs that affected measurement of the Total OPEB liability (TOL) since the prior measurement period:

- The discount rate changed from 2.63 percent as of August 31, 2019, to 2.33 percent as of August 31, 2020. This change increased the Total OPEB Liability.
- The participation rate for post-65 retirees was lowered from 50 percent to 40 percent. This change lowered the Total OPEB Liability.
- The ultimate health care trend rate assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress' repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

Change of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

The amount of OPEB expense recognized by the District in the reporting period was (\$165,897).

At the current year-end August 31, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual actuarial experiences	\$ 172,905	\$ 1,511,282
Changes in actuarial assumptions	203,681	906,817
Differences between projected and actual investment earnings	1,073	-
Changes in proportion and differences between the employer's contributions and the proportionate share of contributions	13	578,757
Contributions paid to TRS subsequent to the measurement date	64,005	
Total as of fiscal year-end	\$ 441,677	\$ 2,996,856

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal year ended August 31,	OPEB Expense Amount
2022	\$ (428,718)
2023	(428,862)
2024	(428,944)
2025	(428,921)
2026	(340,718)
Thereafter	(563,021)

For the current year ended August 31, the District recognized OPEB expense of (\$165,897) and revenue of \$30,812 for support provided by the State.

**COLEMAN INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2021**

A. Notes to Schedules for the TRS Pension

Changes of benefit terms

In May 2019, the 86th Texas legislature approved the TRS Pension Reform Bill (SB12) that provides for gradual contribution increases from the state, participating employers and active employees to make the pension fund actuarially sound. The increases immediately made the pension fund actuarially sound, and the legislature approved funding for a 13th check.

All eligible members retired as of December 31, 2018, received an extra annuity check in September 2019 in either the matching amount of their monthly annuity payment or \$2,000, whichever was less.

Changes of assumptions

There were no changes to the actuarial assumptions since the prior measurement period.

B. Notes to Schedules for the TRS OPEB Plan

Changes in Benefit

There were no changes in benefit terms since the prior measurement date.

Changes in Assumptions

The following assumptions, methods and plan changes which are specific to TRS-Care were updated from the prior year's report:

- The discount rate was changed from 2.64 percent as of August 31, 2019, to 2.33 percent as of August 31, 2020. This change increased the Total OPEB Liability.
- The participation rate for post-65 retirees was lowered from 50 percent to 40 percent. This change lowered the Total OPEB Liability.
- The ultimate health care trend assumption was lowered from 4.50 percent to 4.25 percent as a result of Congress repeal of the excise (Cadillac) tax on high-cost employer health plans in December 2019. This change lowered the Total OPEB Liability.

Future actuarial measurements may differ significantly from the current measurements due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements; and changes in plan provisions or applicable law.

**COLEMAN INDEPENDENT SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED AUGUST 31, 2021**

C. Stewardship, Compliance and Accountability

Budget

The Board of Trustees (local school board) is legally required to adopt an annual budget (on a 12-month basis) for the general fund, the food service fund, and if applicable, the debt service fund. The budgets must be prepared by August 20 and adopted by the local school board before expenditures are made and, if applicable, before the tax rate for the year is set.

- The required supplementary information for the general fund budget is located in Exhibit G-1 “Budgetary Comparison Schedule – General Fund.
- The required Texas Education Agency (TEA) schedule for the food service fund is located in Exhibit J-2 “Budgetary Comparison Schedule – Child Nutrition Fund and
- The required Texas Education Agency (TEA) schedule for the debt service fund (if applicable) is located in Exhibit J-3 “Budgetary Comparison Schedule-Debt Service Fund”.

Once a budget is approved, it can be amended at the fund and function level only by a majority of the members of the Board of Trustees.

Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under State of Texas law, appropriations lapse at year end August 31, and encumbrances outstanding at that time are to be either cancelled or appropriately provided for in the subsequent year’s budget.

It is a violation of Texas State Law for expenditures to exceed the budget in any function of the general fund, the food service fund, or the debt service fund.

Expenditures Exceeding Appropriation

- The current year expenditures did not exceed appropriations in the general fund as detailed in Exhibit G-1 “Budgetary Comparison Schedule -General Fund”.
- The current year expenditures did exceed appropriations in a function in the food service fund as detailed in Exhibit J-2 “Budgetary Comparison Schedule -Child Nutrition Fund”. The expenditures were approved by the board to be paid from Fund 242; however, the Fund 242 excess expenditures had to be reclassified to the Fund 240.
- The current year expenditures also did not exceed appropriations in any functions in the debt service fund (not applicable for the current year) as detailed in Exhibit J-3 “Budgetary Comparison Schedule -Debt Service Fund”.

Report on Internal Control Over Financial Reporting and On Compliance and Other Matters Based on An Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

To the Board of Trustees
Coleman Independent School District
Coleman, Texas 76834

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Coleman Independent School District, as of and for the year ended August 31, 2021, and the related notes to the financial statements, which collectively comprise Coleman Independent School District's basic financial statements, and have issued our report thereon dated November 15, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Coleman Independent School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Coleman Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Coleman Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that may have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Coleman Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item 2021-001.

District's Response to Finding

Coleman Independent School District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Coleman Independent School District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

James E. Rodgers and Company, P.C.

Single Audit Report on Compliance for each Major Federal Program and on Internal Control over Compliance required by the Uniform Guidance

Independent Auditor's Report

To the Board of Trustees
Coleman Independent School District
Coleman, Texas 76834

Report on Compliance for Each Major Federal Program

We have audited Coleman Independent School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Coleman Independent School District's major federal programs for the year ended August 31, 2021. Coleman Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Coleman Independent School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Coleman Independent School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program. However, our audit does not provide a legal determination of Coleman Independent School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Coleman Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2021.

Other Matters

The results of our auditing procedures disclosed no instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and therefore, are not described in the accompanying schedule of findings and questioned costs. Our opinion on each major federal program is not modified with respect to these matters.

Coleman Independent School District's response is not required since noncompliance findings were not identified in our audit and are not described in the accompanying schedule of findings and questioned costs. Coleman Independent School District's response if required would not have been subjected to the auditing procedures applied in the audit of compliance and, accordingly, we would not have expressed an opinion on the response.

Report on Internal Control Over Compliance

Management of Coleman Independent School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Coleman Independent School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Coleman Independent School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

**COLEMAN INDEPENDENT SCHOOL DISTRICT
NOTES ON ACCOUNTING POLICIES FOR FEDERAL AWARDS
YEAR ENDED AUGUST 31, 2021**

1. For all Federal programs, the District uses the fund types specified in Texas Education Agency's *Financial Accountability System Resource Guide*. Special revenue funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund.
2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types and Expendable Trust Funds are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund that is a Governmental Fund type. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.
3. The modified accrual basis of accounting is used for the Governmental Fund types, the Expendable Trust Funds, and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for un-matured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.
4. Federal grant funds are recorded as earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.
5. The period of performance for federal grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, Compliance Statement.

6. Indirect Costs

The District did not elect to use a di minimis cost rate of 10% as described at 2CFR §200.414(f) – Indirect (F&A) Costs.

7. Reconciliation of Federal Awards

The following is a reconciliation of expenditures of federal awards in the SEFA and federal program Revenues in the Statement of Revenues, Expenditures and Changes in Fund Balance of the Governmental funds.
